World's Biggest Tree-

A few weeks ago there was discovered to the east of Fresno, in the Sierras, the biggest tree in the world. At the time it was said that it measured 150 feet in circumference. John Muir, the great naturalist, has visit-ed the tree and reports that it meas-ures at the base only 100 feet, and at four feet above the ground it was only 97 feet in circumference. It is, however, larger than "Gen. Sher-man" and "Gen. Grant." which here-tofore were the recognized monarchs of the forest.

KAISER CINEMATOGRAPHED-

The Herald's Paris correspondent of the Paris Eclaire at Berlin gives some interesting details of the recent meeting between the kaiser and the ezar. The latter is stated to have authorized a cinematograph opera-tor to go on board the imperial yacht Standart, and as soon as the kaiser

stepped on board the Russian vessel, the apparatus was set to work. The kaiser approached the czar and delivered himself of a grandilo-quent speech, accompanied by elabo-rate gestures, and when he learned rate gestures, and when he learned afterward that these latter had been registered by the cinematographer the kaiser, who likes to maintain a reputation for majesty, was very much displeased. The czar, on the contrary, laughed heartily at the incident. CHICAGOAN'S CHANGE OF NAME-

Charles Peterson inherited his father's desire to be something dif-ferent from other men, if that differ-

ferent from other men, if that difference consited in name only, and so he had the Chicago court change his name to Charles Modensward. Last week the new name was put in use for the first time, when the time-keeper in a Wabash avenue whole-sale house, where the young man is employed, erased this particular "Peterson" from the many on his book and wrote in "Modensward." It is reported from Madrid that the Queen Regent was secretly married, while in Austria, to Count Escorara who was her barn boss, or master of horse, and that the young King Al-phonso, when he discovered the fact got into a howling rage and ordered the couple to get out of his house and capital, which the queen declin-ed to do.
